The "ChipCoin"...

When you enter the parking lot, the gate machine will dispense a ChipCoin instead of a paper ticket. The ChipCoin contains a computer chip that records the date and time you entered. **Keep your ChipCoin with you at all times. Do not leave it in your vehicle.**

When you are ready to leave, stop at the automated pay stations before returning to your vehicle. Terminal pay stations are conveniently located in both Arrival areas near the exits. Insert your ChipCoin into the pay station which will calculate the amount you owe. There is no charge unless you are parked past midnight. You may pay with cash, Visa, MasterCard, American Express or Discover (coins are not accepted). The pay station will return the validated ChipCoin to you. Then, simply insert it in the pay station at the exit gate and go!

Since ChipCoins replace paper tickets and can be reused thousands of times, they are better for the environment.

LONG TERM PASSES ARE AVAILABLE.

- Automated Pay Stations
- No charge for daytime parking
- Payment required for over night parking only

The Fastest Way to Pay

For the fastest and easiest payment, simply insert your credit/debit card at the entry gate – no need to take a ChipCoin. You must then insert the same card once again at the exit. Your payment is automatically calculated and charged to your card.
